Actions

Languages I speak :

FR | EN | PL | RU | ROU

Education

Web and Mobile Application
Developer

Associate's Degree

IFOCOP Paris XI | 2019 – 2020

Electronics and
Telecommunications

Bachelor's Degree

Technical University, Chişinău,
Moldova | 2007

Scientific Baccalaureate 2004

Professional Experience

Sequodia – Full-Stack Developer

2020 – 2024

Workforce Management Platform (2023–24)

- Development of a platform to manage agents (registration, files, missions) and clients (sites, subscriptions, deliveries), streamlining logistics and traceability.
- PWA to handle schedules and leaves, improving autonomy and responsiveness.
- Integrated notification system and custom search engine to accelerate mission assignment.

Stack : Angular, NestJS, MongoDB, Mongoose

Teleconsultation Platform (2023–24)

- Online medical consultation platform managing doctors, patients, healthcare structures, agendas, and appointments.
- Implemented appointment booking and doctor search.
- Integrated multiple payment solutions: Stripe, OrangeMoney, MTN.

Stack : Angular, NestJS, MongoDB, Mongoose, Elasticsearch, WebSockets

Error Tracking System (2024)

- Developed a TypeScript library enabling front-end error reporting, improving real-time debugging and response speed.
- Flow: Frontend → AWS SQS → API → Slack

Freelance activity

2024 – Present

LST99 (2025 – present)

- Backend API for audio file processing: conversion, noise reduction, silence trimming.
- Exposed endpoints consumed by Python workers (Whisper, Ollama, Nemo) for transcription, diarization, summarization, and semantic analysis.
- Also implemented user import and automated database backups.

Stack : AdonisJS, FFmpeg, MariaDB, LucidORM, Python
